**US Army Corps
of Engineers®**

Submission/Handling Questions

- We have we received many of your questions by email in advance, and developed answers to them. We will also accept questions written on 3x5 cards, and presented to Paul Daugherty this morning, prior to the lunch break. We will attempt to assemble answers to them, or at least representative questions, over lunch.

**US Army Corps
of Engineers®**

Panel Discussion

- **The afternoon panel also will receive live questions posed during the panel discussion.**
- **The entire question/answer session must be viewed with the caveat that all responses provided at the Industry Day be considered as general information, not the government's official response or position.**
- **The official responses will be via separate posting, following Industry Day. The entire record of Industry Day (slides, court recorder notes, etc.) will all be posted on the OE Webpage.**
