

MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Safety Advisory 01-2003

1. This Safety Advisory is to serve as a reminder for ordnance and explosives operations.
2. Work on or access to ranges or other areas with improved conventional munitions (ICM) requires a Headquarters, Department of the Army, approved waiver prior to entry. Additionally, if ICM are located, they will not be touched, moved, or disturbed.
3. All site work must be in compliance with the approved work plan, site explosives safety submission, and the health and safety plan. Prior to any deviation from the approved documents, approval must be granted.
4. Only those personnel essential to the operation being performed shall be inside the exclusion zone. All essential personnel shall be fully trained, qualified, and experienced for the operation they are to perform.
5. No ordnance item larger than an 81mm will be detonated in the T-10 Controlled Detonation Chamber until further notification is provided.
6. If you require additional guidance, please contact the OE Safety Group at 256-895-1598.
