3. SITE DESCRIPTION: The former William's Field Bomb Target Range #4 is located approximately 9 miles north of Florence, AZ in Pinal County. The site consisted of 640 acres. The site and surrounding areas are uninhabited flat desert land and currently used for cattle grazing.

4. SITE HISTORY: There is no acquisition or disposal information available for this site. The site was used for bombing training by crews from Williams AAF in Higley, AZ. The only improvements to this site consisted of the construction of aiming circles. There is a large amount of M38A2, 100 lb. Practice Bomb debris at the center of the target and scattered around the area. The remains of one M8A1 Parachute Flare was also found on the site. There was no evidence found to indicate that HE bombing activity or Chemical Warfare Materials usage ever occurred on this site.

5. PROJECT DESCRIPTION:

Size, Acres:	640
Former Usage:	Target Area
Present Usage:	Cattle Grazing
Probable End Usage:	Same as above
Ordnance Presence:	Confirmed
Type:	Bomb, 100 lb. Practice, M38A2, w/Spotting Charge, M1A1 and 1 Parachute Flare, M8A1

6. CURRENT STATUS:

The Archives Search Report for Williams Field Bomb Target Range #4 was completed by the U.S. Army Corps of Engineers, St. Louis District, in July 1996.

7. STRATEGY: EE/CA

8. ISSUES AND CONCERNS:

a. The TAG recommends an EE/CA for the entire site since there was confirmed debris from M38-series practice bombs and M8A1 flares encountered by the SI Team during their inspection of this site. Also, the size of the aiming circles is not exact and the size of the buffer/safety zone is not specified so the entire FUDS must be considered.

b. There are known Federally-and State-listed species occurring in the site area. An on-site inspection by appropriate State and Federal personnel may be necessary to verify the presence, absence or location of listed species or natural communities.

c. A four wheel drive vehicle is recommended for travel to this site.

9. SCHEDULED SUMMARY: EE/CA

10. FUNDING/BUDGET SUMMARY: For Official Use Only
