U.S. Army Corps of Engineers holds open house on the former Wurtsmith Air Force Base

HUNTSVILLE, Ala. – The public is invited to an open house at the former Wurtsmith Air Force Base Sept. 18 from 5 - 8 p.m.

A Corps of Engineers safety representative and Air Force representatives will be on hand at the open house to present safety information regarding the land that was once the former Wurtsmith Air Force Base.

Since Wurtsmith was an active military installation for decades, areas that were once part of the base may have unexploded ordnance. Past work has been done to clear hazards, but it is important to err on the side of caution.

Safety is very important and that is why Corps of Engineers representatives will provide unexploded ordnance safety tips and answer any questions at the open house.

The open house will be held in the conference room in building 290 at the former Wurtsmith Air Force Base, which is located at 3950 E. Arrow in Oscoda, MI, 48750.

For questions, please call Paul Rekowski at 989-739-5161 or Andrea Takash at 256-895-1809.
