## **Huntsville Center engineers to meet with local high school students**

**HUNTSVILLE, Ala.** — Engineers from the U.S. Army Corps of Engineers, Engineering and Support Center, Huntsville will visit local high school students Friday to discuss engineering in the real world.

As a part of National Engineers Week, the Huntsville Center engineers will interact with classes at New Century Technology High School throughout the day. They will discuss the work they do and lead experiments in an effort to show students real life engineering.

New Century Technology places a heavy emphasis on math and science and offers a wide array of unique electives focused on technology and engineering.

If you are interested in covering this event, please contact Chris Gardner at 256-895-1692. New Century Technology High School is at 300 Explorer Blvd.
