Huntsville Center awards \$66M contract for initial outfitting of new facility

HUNTSVILLE, ALA. — The U.S. Army Engineering and Support Center, Huntsville, awarded a \$66 million task order to Lockheed Martin of Orlando, Fla., Sept. 30, 2011, to provide Initial Outfitting and Transition Facilities Support Services to support the opening of the U.S. Army Medical Research Institute of Infectious Diseases Replacement Laboratory at Fort Detrick, Md.

The contract period is 75 months.

Lockheed Martin was selected from a pool of five contractors on the Commercial Services Task Order on the Indefinite Delivery/Indefinite Quantity Multiple Award Task Order Contract for large businesses.

The Huntsville Center has two, four-year, IDIQ MATOC for the IO&T Program. The Unrestricted IDIQ MATOCs include a pool of five contractors with a capacity of \$409 million. The Restricted IDIQ MATOCs include a pool of five Small Business contractors with a total capacity of \$81 million.

The Initial Outfitting and Transition (IO&T) Program at the U.S. Army Engineering and Support Center, Huntsville offers a total turn-key project support for the equipping and the transitioning of staff and patients associated with new military healthcare and medical research laboratory facility construction and renovation projects to support requirements of the U.S. Army Medical Department (AMEDD). IO&T provides program/ project management and contracting support to AMEDD locations nationwide and overseas. The IO&T Program provides a wide-range of services to address the multitude of needs of any project to ensure that when the facility is fully operational, it can effectively and efficiently support its mission.

The U.S. Army Engineering and Support Center, Huntsville, executes Army programs and specialized missions worldwide that require unique technical expertise, large acquisitions and centralized program management.
