Huntsville Center awards \$35 million contract

HUNTSVILLE, Ala.-- The U.S. Army Engineering and Support Center, Huntsville, awarded Black & Veatch Special Projects Corp., Overland Park, Kan., and URS Group, Inc., Washington, D.C., April 9 with a \$35 million firm-fixed-price contract between five contractors.

The award provides for the services in support of Huntsville Center's Utility Monitoring Control Systems and Electronic Security Systems programs. Work location will be determined with each task order, with an estimated completion date of March, 2017. The bid was solicited through the Internet, with 11 bids received.

The Utility Monitoring and Control System at Huntsville Center provides quality oversight and technical expertise in the design and installation of UMCS projects throughout the Department of Defense and other government agencies reducing energy usage and labor costs.

Huntsville Center's Electronic Security Systems supports Headquarters, U.S. Army Corps of Engineers in criteria development for design, construction, procurement and evaluation of electronic security systems. Upon request by other government agencies, the Center provides technical, engineering and contracting support in fielding electronic security systems.

The U.S. Army Engineering and Support Center, Huntsville, executes Army programs and specialized missions worldwide that require unique technical expertise, large acquisitions and centralized program management.
