U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG®

Background

The Environmental and Munitions Center of Expertise (EM CX) offers Proponent Sponsored Engineer Corps Training (PROSPECT) and non-PROSPECT courses, workshops and mentoring sessions. PROSPECT and non-PROSPECT training is available to all federal agencies.

PROSPECT Courses

The following environmental regulatory training courses are available through PROSPECT and can be found in the "Managers and Supervisors Training Handbook" also known as "The Purple Book" found at <http://ulc.usace.army.mil/>

- Environmental Regulations Practical Application Course — This course teaches how to apply the various environmental regulatory requirements from a practical perspective.
- The CERCLA/RCRA Process — This course trains staff involved with hazardous and toxic waste projects on military and civil works projects in the proper application of Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA),
- Resource Conservation and Recovery Act (RCRA) and other relevant environmental laws, regulations, and policies. Course is Inter-service Environmental Education Review Board (ISEERB)-approved.
- CERCLA Process Workshop— This course addresses the CERCLA regulatory requirements for specific programs.
- Hazardous Waste Manifesting and Department of Transportation Certification— This DOD and ISEERB approved course enables personnel to understand the regulatory requirements of RCRA and the Hazardous Materials Transportation Act (HMTA) as it applies to the generation, transportation and disposal of hazardous waste and provides DOT certification.
- Hazardous Waste Manifesting 16-Hour DOT Recertification Course — The refresher course is intended to provide recertification training on DOT requirements to fulfill the training requirements of 49 CFR 172, Subpart H for security and general awareness/familiarization training.
- Radioactive Waste Transport — This workshop is designed to instruct the student on the Department of Transportation (DOT) requirements pertaining specifically to radioactive wastes, in particular, remediation wastes from radioactive sites such as FUSRAP sites, EPA Superfund sites and military installations.
- Environmental Sampling — This course provides students with techniques for sampling environmental media and hazardous wastes in the investigative, design, remedial action, and operation and maintenance phases.
- Hazardous, Toxic and Radioactive Waste Construction Inspection— This course is for working level and management personnel having responsibilities in USACE Superfund, DERP, and other Hazardous, Toxic and Radioactive Waste (HTRW) programs.

U.S. ARMY CORPS OF ENGINEERS – ENGINEERING AND SUPPORT CENTER, HUNTSVILLE

P.O. BOX 1600, HUNTSVILLE, AL 35807 Public Affairs Office 256-895-1694

WWW.HND.USACE.ARMY.MIL

Distribution A - Approved for Public Release - Unlimited Distribution

- Environmental Remediation Technologies — This course provides a workable understanding of various remediation technologies.
- QRP/Ordnance and Explosives Recognition and Safety — This course is designed for recycling personnel responsible for management of the qualified recycling program.

Center of Expertise Workshops

The CX teaches a variety of workshops. They are available at a nominal cost and can be taught on-site or possibly via the Internet by subject matter experts. The level of detail can be easily tailored and topics can be combined to meet specific needs. The costs for presenting these topics depend on the class location, course length and number of instructors. Please contact the appropriate CX training point of contact at the phone numbers listed below to discuss workshop content, cost and schedule.

- **Site Characterization:** 402-697-2668
- **Remediation Techniques:** 402-697-2668
- **Health, Safety and Risk Assessment:** 402-697-2563
- **Environmental Monitoring/Chemical Data Quality Management:** 402-697-2563
- **Performance and Optimization Reviews::** 402-697-2668
- **Unexploded Ordnance Recognition and Safety:** 256-895-1586
- **Military Munitions Response Program Process Mentoring:** 256-895-1334
- **Cost Engineering:** 402-697-2426
- **Military Munitions Response Program (MMRP) Overview Web-based Training Module and the**
- **Munitions Response Site Prioritization Protocol (MRSPP) Web-based Training Module:** 256-895-1334. To register, go to https://www3.dac.army.mil/AS/ammo_87_dl.html
