

KEY POINTS FOR THE U.S. ARMY CORPS OF ENGINEERS ENGINEERING AND SUPPORT CENTER HUNTSVILLE'S CAPTURED ENEMY AMMUNITION IRAQ/ HUNTSVILLE

OVERALL THEME

As the world's premier engineering organization, the U.S. Army corps of Engineers responds to our nation's needs, be they national or international, and in peacetime or war.

1. The CEA mission enables our active-duty military forces to return to their war-fighting mission.
2. CEA mission participants are self-sustaining and require very limited military protection or oversight.
3. The CEA mission is dedicated to returning a safer, more stable Iraq to its people.
4. The CEA mission is dedicated to employing as many local national workers as possible on its project sites.

TOP FOUR MESSAGES OF CEA IRAQ/ HUNTSVILLE

1. CEA is being collected and either stored or destroyed, providing a safer environment for our Soldiers and the people of Iraq.
2. HNC's experience and expertise in the safe handling of ordnance and explosives is essential to the success of our Armed Forces in Iraq. Our mix of civilian and military expertise combined with the skills of world-class contractors and local national employees allowed us to quickly assemble a team of experts to provide planning, design and management of the CEA mission.
3. The Huntsville Center's CEA program is actively engaged in restoring the environmental integrity of Iraq by destroying the conventional weaponry that would create environmental hazards and pose a serious safety threat to the health and welfare of the people of Iraq.
4. The CEA mission is dedicated to employing and training as many local national workers as possible on its project sites.
