

## UTILITY MONITORING AND CONTROL SYSTEMS

## Table of Contents

	Page
<b>CHAPTER 1. INTRODUCTION</b>	
Paragraph 1. PURPOSE .....	1-1
2. SCOPE .....	1-1
3. REFERENCES .....	1-1
4. UMCS .....	1-1
5. EXISTING EMCS .....	1-1
<b>CHAPTER 2. GENERAL CONSIDERATIONS</b>	
Paragraph 1. RELIABILITY .....	2-1
2. EXPANDABILITY .....	2-1
3. BENEFITS .....	2-1
4. APPLICATIONS .....	2-1
5. CODES AND STANDARDS .....	2-1
6. FUNCTIONAL EQUIVALENCY .....	2-1
7. POWER LINE CONDITIONER .....	2-2
8. UNINTERRUPTIBLE POWER SYSTEM .....	2-2
9. INTERCOMMUNICATIONS SYSTEMS .....	2-2
10. INTERFACE AND FUTURE EXPANSION .....	2-2
11. CONSOLE AND ACCESSORIES .....	2-2
12. SUPPORT EQUIPMENT .....	2-3
13. TRANSIENT PROTECTION REQUIREMENTS .....	2-3
14. TRANSIENT PROTECTION DEVICES .....	2-4
15. GROUNDING .....	2-4
16. SHIELDING .....	2-5
<b>CHAPTER 3. CENTRAL STATION AND ISLAND STATION HARDWARE</b>	
Paragraph 1. HARDWARE CONFIGURATION .....	3-1
2. CENTRAL/ISLAND STATION COMPUTER .....	3-4

3. COMMUNICATION PROCESSOR .....	3-5
4. NETWORK INTERFACE ADAPTER .....	3-5
5. HARD DRIVES .....	3-5
6. FLOPPY DRIVES.....	3-5
7. MAGNETIC TAPE SYSTEMS .....	3-5
8. OPTICAL DRIVES .....	3-5
9. PRINTERS.....	3-6
10. WORKSTATIONS .....	3-6
11. LOCAL AREA NETWORK.....	3-7
12. MODEMS.....	3-8

#### CHAPTER 4. FIELD EQUIPMENT PANEL HARDWARE

Paragraph 1. HARDWARE CONFIGURATION.....	4-1
2. SMART FIELD PANEL.....	4-1
3. REMOTE TERMINAL UNIT.....	4-3
4. UNIVERSAL PROGRAMMABLE CONTROLLER .....	4-4
5. UNITARY CONTROLLERS.....	4-5
6. I/O FUNCTIONS .....	4-6
7. CHILLER CONTROL PANEL .....	4-7
8. BOILER CONTROL PANEL .....	4-7

#### CHAPTER 5. INSTRUMENTATION AND CONTROLS

Paragraph 1. SENSING DEVICES .....	5-1
2. CONTROL DEVICES .....	5-4
3. MICROPROCESSOR-BASED CONTROLLERS.....	5-5

#### CHAPTER 6. SOFTWARE DESCRIPTIONS AND REQUIREMENTS

Paragraph 1. GENERAL.....	6-1
2. CENTRAL STATION AND ISLAND STATION .....	6-1
3. FIELD EQUIPMENT PANEL .....	6-1

#### CHAPTER 7. APPLICATIONS SOFTWARE

Paragraph 1. GENERAL DESCRIPTION.....	7-1
---------------------------------------	-----

2. SCHEDULED START/STOP PROGRAM .....	7-1
3. OPTIMUM START/STOP PROGRAM .....	7-2
4. ECONOMIZER PROGRAM.....	7-3
5. VENTILATION-RECIRCULATION PROGRAM .....	7-5
6. HOT DECK-COLD DECK TEMPERATURE RESET PROGRAM .....	7-6
7. REHEAT COIL RESET PROGRAM.....	7-7
8. BOILER MONITORING AND CONTROL PROGRAM.....	7-8
9. CHILLER SELECTION PROGRAM .....	7-10
10. CHILLED WATER TEMPERATURE RESET PROGRAM .....	7-12
11. CONDENSER WATER TEMPERATURE RESET PROGRAM.....	7-13
12. DEMAND LIMITING PROGRAM .....	7-14
13. CHILLER DEMAND LIMITING PROGRAM.....	7-15
14. DAY/NIGHT SETBACK PROGRAM .....	7-16
15. HOT WATER OA RESET .....	7-17
16. LIGHTING CONTROL.....	7-18
17. UNITARY CONTROLLER APPLICATIONS PROGRAMS.....	7-18
18. UTILITY CONTROL FUNCTIONS AND SEQUENCES OF OPERATION .....	7-18

## CHAPTER 8. DIRECT DIGITAL CONTROL IMPLEMENTATION

Paragraph 1. GENERAL.....	8-1
2. INSTRUMENTS AND INPUTS .....	8-1
3. DIAGRAMS.....	8-1
4. TABLES .....	8-1
5. SYMBOLS AND ABBREVIATIONS .....	8-1
6. SEQUENCES OF OPERATION .....	8-1

## CHAPTER 9. SUPERVISORY CONTROL IMPLEMENTATION

Paragraph 1. GENERAL.....	9-1
2. INSTRUMENTS AND INPUTS .....	9-1
3. DIAGRAMS.....	9-1
4. TABLES .....	9-1

5. SYMBOLS AND ABBREVIATIONS .....	9-1
6. ADDITIONAL APPLICATIONS .....	9-1

## CHAPTER 10. DATA TRANSMISSION SYSTEMS

Paragraph 1. UMCS DATA TRANSMISSION TOPOLOGIES.....	10-1
2. FIBER OPTICS .....	10-2
3. WIRELINES .....	10-2
4. 10 BASE-T .....	10-3
5. COAXIAL CABLE .....	10-3
6. RADIO FREQUENCY (RF).....	10-3
7. PACKET RADIO .....	10-4
8. GOVERNMENT-FURNISHED DATA TRANSMISSION SYSTEMS.....	10-4

## CHAPTER 11. EQUIPMENT MODIFICATIONS

Paragraph 1. MODIFICATION GUIDELINES .....	11-1
2. INSTRUMENTATION AND CONTROLS .....	11-1
3. LOCAL CONTROLLERS UNDER SUPERVISORY CONTROL.....	11-1
4. CONTROLLER INTERFACES.....	11-1
5. TIME CLOCKS.....	11-2
6. SINGLE LOOP DIGITAL CONTROLLERS .....	11-2
7. INSTRUMENT AIR SUPPLY .....	11-2
8. ELECTRICAL EQUIPMENT .....	11-3
9. SUBSTATIONS.....	11-3
10. SWITCHGEAR.....	11-3
11. EMERGENCY GENERATOR.....	11-3
12. MOTOR STARTERS.....	11-3
13. MECHANICAL EQUIPMENT .....	11-3
14. CHILLERS .....	11-4
15. BOILERS .....	11-4
16. HVAC.....	11-4
17. NEW BUILDING PREPARATION.....	11-5

**CHAPTER 12. PROJECT IMPLEMENTATION**

Paragraph 1. SEQUENCE OF EVENTS .....	12-1
2. VIABILITY SURVEY .....	12-1
3. INFORMATION COLLECTION FOR DESIGN .....	12-1
4. BUILDINGS AND SYSTEMS SELECTION .....	12-2
5. DESIGN SURVEY.....	12-2
6. APPLICATIONS PROGRAM SELECTION .....	12-4
7. REPAIR AND REPLACEMENT (EXISTING EQUIPMENT).....	12-4
8. IDENTIFICATION OF EQUIPMENT MODIFICATIONS.....	12-4
9. I/O POINT SELECTION ESTIMATE .....	12-4
10. SYSTEM CONFIGURATION.....	12-5
11. DATA COMMUNICATION CONSIDERATIONS.....	12-5
12. INTERCOMMUNICATIONS .....	12-5
13. FIELD HARDWARE LOCATION.....	12-5
14. EQUIPMENT MODIFICATIONS .....	12-5
15. ENERGY SAVINGS .....	12-6
16. COST AVOIDANCE .....	12-6
17. COST SAVINGS .....	12-7
18. COST ESTIMATES .....	12-7
19. ECONOMIC ANALYSIS .....	12-7
20. DD FORM 1391 VALIDATION.....	12-8
21. CENTRAL STATION AND ISLAND STATIONS.....	12-8
22. INSTRUMENTATION AND CONTROLS .....	12-8
23. WIRING REQUIREMENTS .....	12-10
24. TRANSIENT PROTECTION.....	12-10
25. DRAWINGS .....	12-10
26. SPECIFICATIONS .....	12-11
27. CONSTRUCTION PERIOD .....	12-11

**CHAPTER 13. EXPANSION AND UPGRADE OF EXISTING EMCS**

Paragraph 1. UPGRADE GUIDELINES .....	13-1
2. EXPANSION GUIDELINES .....	13-1
APPENDIX A. REFERENCES .....	A-1
APPENDIX B. SYMBOLS, ABBREVIATIONS, AND TYPICAL DETAILS .....	B-1
APPENDIX C. VIABILITY SURVEY PROCEDURES FOR UMCS .....	C-1

## FIGURES

## Figure      Title

1-1      Typical UMCS Configuration .....	1-2
1-2      Typical EMCS Configuration .....	1-2
2-1      Typical Central Station or Island Station Equipment Room .....	2-3
3-1      Single-Site UMCS with Central Station .....	3-1
3-2      Multi-Site UMCS with Central Station and Island Stations .....	3-2
3-3      Typical Island Station Arrangement (Multiple Data Transmission Channels) .....	3-3
3-4      Typical Island Station Arrangement (LAN-based Field Equipment) .....	3-3
3-5      Typical Central Station Arrangement .....	3-4
3-6      Central/Island Station Computer .....	3-4
3-7      Workstation with Laser Printer .....	3-7
3-8      Central or Island Station LAN using a Bus Topology .....	3-7
3-9      Central or Island Station LAN using a Star Topology .....	3-8
4-1      Field Hardware .....	4-1
4-2      Smart Field Panel and Remote Terminal Units (System with Multiple Data Transmission Channels) .....	4-3
4-3      Smart Field Panel and Remote Terminal Units (System with LAN-based Smart Field Panel) .....	4-3
4-4      Smart Field Panel and Universal Programmable Controllers (System with Multiple Data Transmission Channels) .....	4-4
4-5      Smart Field Panel and Universal Programmable Controllers (System with LAN-based Smart Field Panels) .....	4-5
4-6      Smart Field Panel and Unitary Controllers (System with Multiple Data Transmission Channels) .....	4-6
4-7      Smart Field Panel and Unitary Controllers (System with LAN-based Smart Field Panel) .....	4-6
8-1      Steam/HW Converter and Primary/Secondary Heating System .....	8-15
8-2      Hot Water Boiler and Primary/Secondary Heating System .....	8-16
8-3      Hot Water Boiler with Constant Volume Circulating Loop and Primary/Secondary Heating System .....	8-17
8-4      High Temperature HW/HW Converter And Primary/Secondary Heating System .....	8-18
8-5      Steam/HW Converter with Dual Temperature Distribution System .....	8-19
8-6      High Temperature HW/HW Converter with Dual Temperature Distribution System .....	8-20
8-7      Dual Temperature System with Hot Water Boiler and Air-Cooled Chiller .....	8-21
8-8      Water-Cooled Chiller .....	8-22
8-9      Multi-Zone Air Handling System with Hot Water and Chilled Water Coils .....	8-23
8-10     Dual Duct Air Handling System with Hot Water and Chilled Water Coils .....	8-24
8-11     Bypass Multi-Zone Air Handling System with Hot Water and Chilled Water Coils .....	8-25
8-12     VAV Air Handling System with Hot Water and Chilled Water Coils .....	8-26
8-13     VAV Air Handling System with Return Fan and Hot Water/Chilled Water Coils .....	8-27
8-14     Single Zone Air Handling System with Hot Water/Chilled Water Coils and Humidification .....	8-28
8-15     Single Zone Air Handling System with Hot Water and DX Refrigeration Coils .....	8-29
8-16     Heating and Ventilating System .....	8-30

9-1	Steam/HW Converter and Primary/Secondary Heating System .....	9-7
9-2	Hot Water Boiler and Primary/Secondary Heating System.....	9-8
9-3	Hot Water Boiler with Constant Volume Circulating Loop and Primary/Secondary Heating System .....	9-9
9-4	High Temperature HW/HW Converter And Primary/Secondary Heating System .....	9-10
9-5	Steam/HW Converter with Dual Temperature Distribution System .....	9-11
9-6	High Temperature HW/HW Converter with Dual Temperature Distribution System .....	9-12
9-7	Dual Temperature System with Constant Volume Hot Water Circulating Loop and Air-Cooled Chiller.....	9-13
9-8	Dual Temperature System with Hot Water Boiler and Air-Cooled Chiller.....	9-14
9-9	Water-Cooled Chiller.....	9-15
9-10	Multi-Zone Air Handling System w/Hot Water and Chilled Water Coils.....	9-16
9-11	Dual Duct Air Handling System with Hot Water and Chilled Water Coils .....	9-17
9-12	Bypass Multi-Zone Air Handling System with Hot Water and Chilled Water Coils.....	9-18
9-13	VAV Air Handling System with Hot Water and Chilled Water Coils.....	9-19
9-14	VAV Air Handling System with Return Air Fan and Hot Water/Chilled Water Coils .....	9-20
9-15	Single Zone Air Handling System with Hot Water and Chilled Water Coils .....	9-21
9-16	Single Zone Air Handling System with Humidification .....	9-22
9-17	Single Zone Air Handling System with Hot Water and DX Refrigeration Coils .....	9-23
9-18	Heating and Ventilating System.....	9-24
9-19	Steam Boilers.....	9-25
9-20	Hot Water Boilers.....	9-26
9-21	Electric Domestic Hot Water System .....	9-27
9-22	Oil/Gas Domestic Hot Water System.....	9-27
9-23	Steam Domestic Hot Water System .....	9-28
9-24	Steam Unit Heaters.....	9-28
9-25	Hot Water Unit Heaters .....	9-29
9-26	Electric Unit Heaters .....	9-29
9-27	Electric Radiation .....	9-30
9-28	Lighting Control.....	9-30
9-29	Standby Generator System .....	9-31
9-30	Water Storage and Distribution System .....	9-31
9-31	Sewage Lift System .....	9-32
12-1	Typical Central Station or Island Station Equipment Room .....	12-13
12-2	Typical Electrical Single-Line Diagram.....	12-13

## TABLES

Figure	Title	
7-1	Damper Modulation for Cold Deck Systems.....	7-4
7-2	Damper Modulation for Cold Deck Systems.....	7-4
8-1	Database Table for Steam/HW Converter and Primary/Secondary Heating System .....	8-31
8-2	Database Table for Hot Water Boiler and Primary/Secondary Heating System .....	8-32
8-3	Database Table for Hot Water Boiler with Constant Volume Circulating Loop and Primary/Secondary Heating System .....	8-33
8-4	Database Table for High Temperature HW/HW Converter And Primary/Secondary Heating System.....	8-34
8-5	Database Table for Steam/HW Converter with Dual Temperature Distribution System.....	8-35
8-6	Database Table for High Temperature HW/HW Converter with Dual Temperature Distribution System .....	8-36
8-7	Database Table for Dual Temperature System with Hot Water Boiler and Air-Cooled Chiller.....	8-37

8-8	Database Table for Water-Cooled Chiller .....	8-38
8-9	Database Table for Multi-Zone Air Handling System with Hot Water and Chilled Water Coils .....	8-39
8-10	Database Table for Dual Duct Air Handling System with Hot Water and Chilled Water Coils .....	8-40
8-11	Database Table for Bypass Multi-Zone Air Handling System with Hot Water and Chilled Water Coils.....	8-41
8-12	Database Table for VAV Air Handling System with Hot Water and Chilled Water Coils .....	8-42
8-13	Database Table for VAV Air Handling System with Return Fan and Hot Water/Chilled Water Coils .....	8-43
8-14	Database Table for Single Zone Air Handling System with Hot Water/Chilled Water Coils and Humidification.....	8-44
8-15	Database Table for Single Zone Air Handling System with Hot Water and DX Refrigeration Coils.....	8-45
8-16	Database Table for Heating and Ventilating System .....	8-46
8-17	Mixed-Air Damper Modulation .....	8-5
8-18	Mixed-Air Damper Modulation .....	8-6
8-19	Mixed-Air Damper Modulation .....	8-8
8-20	Mixed-Air Damper Modulation .....	8-9
8-21	Mixed-Air Damper Modulation .....	8-10
8-22	Mixed-Air Damper Modulation .....	8-11
8-23	Mixed-Air Damper Modulation .....	8-13
9-1	Database Table for Steam/HW Converter and Primary/Secondary Heating System.....	9-33
9-2	Database Table for Hot Water Boiler and Primary/Secondary Heating System .....	9-34
9-3	Database Table for Hot Water Boiler with Constant Volume Circulating Loop and Primary/Secondary Heating System .....	9-35
9-4	Database Table for High Temperature HW/HW Converter And Primary/Secondary Heating System.....	9-36
9-5	Database Table for Steam/HW Converter with Dual Temperature Distribution System.....	9-37
9-6	Database Table for High Temperature HW/HW Converter with Dual Temperature Distribution System .....	9-38
9-7	Database Table for Dual Temperature System with Constant Volume Hot Water Circulating Loop and Air-Cooled Chiller .....	9-39
9-8	Database Table for Dual Temperature System with Hot Water Boiler and Air-Cooled Chiller.....	9-40
9-9	Database Table for Water-Cooled Chiller .....	9-41
9-10	Database Table for Multi-Zone Air Handling System w/Hot Water and Chilled Water Coils .....	9-42
9-11	Database Table for Dual Duct Air Handling System with Hot Water and Chilled Water Coils .....	9-43
9-12	Database Table for Bypass Multi-Zone Air Handling System with Hot Water and Chilled Water Coils.....	9-44
9-13	Database Table for VAV Air Handling System with Hot Water and Chilled Water Coils .....	9-45
9-14	Database Table for VAV Air Handling System with Return Air Fan and Hot Water/Chilled Water Coils .....	9-46
9-15	Database Table for Single Zone Air Handling System with Hot Water and Chilled Water Coils .....	9-47
9-16	Database Table for Single Zone Air Handling System with Humidification.....	9-48
9-17	Database Table for Single Zone Air Handling System with Hot Water and DX Refrigeration Coils.....	9-49
9-18	Database Table for Heating and Ventilating System .....	9-50
12-1	Summary of Applications Programs.....	12-14
12-2	UMCS Savings by Building.....	12-15
12-3	Cost Estimate Summary by Building.....	12-16

12-4	Systems Summary Economic Analysis Worksheet .....	12-17
