13.1.c UNITED STATES FORCES, KOREA INVITED CONTRACTORS AND TECHNICAL REPRESENTATIVES

USFK Regulation 700-19 establishes policies for United States Forces, Korea (USFK) invited contractors and technical representatives concerning their status under the United States of America and the Republic of Korea (U.S.-ROK) Status of Forces Agreement (SOFA) and the logistic support (corporate and individual) that may be provided by this command.

DoD contracting offices preparing contracts to be performed in the ROK by personnel of the U.S. or third-country national contractors shall coordinate with the Assistant Chief of Staff (ACOF), Acquisition Management, HQ USFK, and the USFK sponsoring agency in accordance with Chapter 2, Section II, of this regulation.

b. The Contracting Officer will coordinate with HQ USFK, ACofS, Acquisition Management, in accordance with USFK Reg 700-10. The Acquisition Management, will determine the appropriate contractor status under the SOFA and notify the Contracting Officer of the determination.

c. Subject to the above approval, the Contractor, including their employees and lawful dependents, may be accorded such privileges and exemptions as specified in the U.S.-ROK SOFA, and implemented per USFK Reg 700-19, subject to the conditions and limitations imposed by the SOFA and this regulation. Those privileges and exemptions may be furnished during the performance period of the contract, subject to their availability and provided the invited contractor or technical representative status is not withdrawn by USFK.

f. The authorities of the ROK will have the right to exercise jurisdiction over invited contractors and technical representatives including officials and employees and their dependents, for offenses committed in the ROK and punishable by the laws of the ROK. In recognition of the role of such persons in the defense of the ROK, they will be subject to the provisions of Article XXII, U.S.-ROK SOFA, related Agreed Minutes and Understandings on Implementation. In those cases in which the authorities of the ROK decide not to exercise jurisdiction, they shall notify the U.S. military authorities as soon as possible. excuse the basis for the filing of any claims against the U.S. Government if the withdrawal is made for the reasons stated in subparagraph h above. Under no circumstances will the withdrawal of such status or privileges be considered or construed as a breach of contract by the U.S. Government. The determination to withdraw SOFA status and privileges by USFK shall be final and binding on the parties unless it is patently arbitrary, capricious, and lacking in good faith. (End of Clause)

*Jullien Enterprises, Ltd.***13.1.d TASK/DELIVERY ORDERS TO BE PERFORMED IN THE FEDERAL
REPUBLIC OF GERMANY**

On 27 March 1998, the Governments of the United States and the Federal Republic of Germany agreed to new implementation procedures for Articles 72 and 73, Supplementary Agreement (SA) to NATO Status of Forces Agreement (SOFA). Employees of a U.S. Department of Defense contractor expected to perform duties under contract in Germany may, under certain conditions, be characterized as technical experts pursuant to Article 73, of the NATO SOFA SA. Unlike other employees, technical experts are not subject to German income taxation. The Department of Defense has agreed to obtain approval by German authorities to establish these contract positions and to accredit the persons nominated to fill them.

The BPA holder should be aware that approval by German authorities is now required to establish contract positions for technical experts to accredit the persons nominated to fill them. German approval is required BEFORE contractor employees may start work in Germany. Accreditation (TESA) procedures can be found at the following web site:
<http://www.chrma.hqusareur.army.mil/docper/moi98.htm>.

Solicitation Provision:

TECHNICAL EXPERT STATUS ACCREDITATION (TESA)

This RFQ will require utilization by the contractor of Technical Expert (TE) employees in Germany. The Department of Defense must obtain approval by German authorities to establish such contract positions. Following are TE positions specified in this contract for which approval has not been obtained at date of solicitation (RFQ) issuance:

- Project Manager
- Principal Engineer
- Sr. Engineer
- Sr. Engineer I
- Sr. Engineer II
- Engineer
- Jr. Engineer
- Sr. Security Specialist
- Security Specialist

Offers should be based on the assumption that approval of the above positions will be granted. In the event that, following contract award, any or all of the above positions are disapproved, the Government and the contractor shall negotiate an equitable adjustment in the contract price or estimated cost/fee.

NAME OF OFFEROR OR CONTRACTOR
Jullien Enterprises, Ltd.

Contract Clause:

TECHNICAL EXPERT STATUS ACCREDITATION (TESA)

This BPA requires the utilization of Technical Expert (TE) personnel to be employed by the contractor. The Department of Defense must obtain approval by German authorities for accreditation of employees to fill such contract positions. Contractors may not employ TE personnel that have not been accredited to specific positions at specific locations. To expedite accreditation, contractor agrees to promptly complete in accurate detail and return to the Contracting Officer a questionnaire (accessible at the web site above) on each employee designated to fill a TE position.

The contractor shall promptly notify the Contracting Officer if a TE employee once accredited is no longer performing duties requiring accreditation.

The contractor recognizes that German Government authorities may from time to time visit contractor's work areas for the purpose of verifying the status of positions and personnel as TE employees.

13.1.e SHORT-TERM CONTRACTOR TEMPORARY DUTY (TDY) IN GERMANY

Due to the anticipated delay (up to 20 weeks estimate) in getting Technical Expert (TE) status approved, the German Ministry of Labor has agreed to a short-term TDY (up to 90 days) arrangement.

To qualify for this exemption, the contractor should datafax the "Request for Confirmation of Exemption from the Requirement to Obtain a Work Permit" to the State Labor Office in Stuttgart. The form must be completed in German. The German Government should respond within seven (7) working days from receipt of the required datafax.

Working one day after a 90 day exemption has been granted makes the individual subject to prosecution by the German authorities and subject to payment of applicable taxes for the entire period. Individual contractor personnel can, however, use a less-than-90 day TDY on more than one occasion even if the total period exceeds 90 days. The German Ministry of Labor has determined that periods in excess of 180 days would probably result in denial of exemption.

The letters, both in German and English, are available at the DOCPER web site:
<http://www.chrma.hqusasreur.army.mil/docper>.

13.3 INSPECTION AND ACCEPTANCE

Inspection and Acceptance of products and services shall be performed by a duly authorized Government representative identified in individual orders.

13.4 GOVERNMENT FURNISHED FACILITIES AND EQUIPMENT

The Government may be required to provide facilities and equipment to the BPA holder in performance of task under this BPA. This will be addressed in individual Task/Delivery Orders issued under this BPA. All Government provided equipment will be returned to the Government upon completion of task. The Government reserves the right to provide GFE to be integrated and installed by the BPA holder, as described in individual Task/Delivery Orders.

13.5 INCIDENTALS/EMERGENCY ITEMS

Incidental items (items not acquired pursuant to a GSA Schedule) are outside the scope of this BPA. However, if deemed necessary for the total product solution of a specific Task/Delivery Order such incidentals may be ordered under this BPA after compliance with applicable acquisition regulations. For example, incidentals with a total value at or below the micro-purchase threshold (currently \$2,500) may be ordered if acquired pursuant to FAR Subpart 13.2.

NAME OF OFFEROR OR CONTRACTOR

Jullien Enterprises, Ltd.

d. To avoid or mitigate a potential conflict, the Contracting Officer will impose appropriate constraints, such as the following.

1. The BPA holder agrees that if it provides under a BPA order systems engineering and technical guidance for systems and programs but does not have overall contractual responsibility, it will not be allowed to be awarded a contract to supply the system or any of its major components or be a subcontractor or consultant to a supplier of the system or any of its major components (FAR 9.505-1).
2. The BPA holder agrees that if it assists in the preparation of nondevelopmental specifications or of work statements for a system or services for a competitive acquisition under a BPA order, it will not be allowed to furnish these items, either as a prime contractor a subcontractor or as a consultant (FAR 9.505-2).
3. The BPA holder agrees that if it gains access to proprietary data of other companies, it will protect such data and it will not use such proprietary data in supplying systems or components in future competitive procurements (FAR 9.505-4). In addition, the BPA holder agrees to protect the proprietary data and rights of other organizations disclosed to the contractor during performance of any Task Order with the same caution that a reasonably prudent contractor would use to safeguard highly valuable property. The BPA holder also agrees that if it gains access to the proprietary information of other companies, that it will enter into an agreement with the other companies to protect their information from unauthorized use or disclosure for as long as it remains proprietary and refrain from using the information for any purpose other than that for which it was furnished.
4. The BPA holder agrees that it shall not distribute reports, data or information of any nature arising from its performance under this BPA, except as provided by the Task Order or as may be directed by the Contracting Officer.
5. Subcontracts: The BPA holder shall include the provisions at 3 and 4, including this paragraph, in agreements with consultants or subcontracts of any tier which involve access to information covered above. The use of this clause in such subcontracts shall be read by substituting the work "consultant" or "subcontractor" for the word "BPA holder" whenever the latter appears.
6. The BPA holder further agrees that it will neither evaluate nor advise the Government with regard to its own products or activities. The BPA holder will objectively evaluate or advise the Government concerning products or activities of any prospective competitors.

NAME OF OFFEROR OR CONTRACTOR

Jullien Enterprises, Ltd.

7. Government representatives shall have access to BPA holder's premises and right to inspect all pertinent books and records in order to insure that the BPA holder is in compliance with part 9 of the FAR and this provision.

8. The BPA holder agrees to develop, maintain and administer the following described specific programs:

"To thoroughly educate its employees, through formal training, company policy, information directives and procedures, in an awareness of the legal provisions of FAR 9 subpart 9.5 and its underlying policy and philosophy principles so that each employee will know and understand the provisions of this subsection and the absolute necessity of safeguarding information under a Task Order from anyone other than the BPA holder's employees who have a need to know and the U.S. Government."

9. The term BPA holder herein used means (1) the organization (hereinafter referred to as "it or its") entering into this agreement with the Government (2) all business organizations which it may merge, join or affiliate with now or in the future and in any manner whatsoever or which hold or may obtain, by purchase or otherwise, direct or indirect control of it. (3) its parent organization if any and any of its present future subsidiary, associates, affiliates, or holding companies (4) any organization or enterprise over which it has direct or indirect control now or in the future.

10. The organizational conflict of interest constraints established by the order are for the period of the order, plus 2 years, provided that the agreement to protect proprietary information from unauthorized use of disclosure lasts as long as the information remains proprietary unless the agreement with the other company provides otherwise.

11. The BPA holder may submit a response to any terms of constraint proposed by the Contracting Officer for the purpose of avoiding or mitigating a conflict.
