Five contracts awarded for initial outfitting, transition services for medical facilities

HUNTSVILLE, Ala. -- The U.S. Army Engineering and Support Center, Huntsville, on Sept. 9 awarded five contracts with an \$81 million shared programmatic capacity to five companies that will provide initial outfitting and transition services for Army medical facilities throughout the continental U.S.

The contracts were awarded to the following companies: Advantech Inc., Annapolis, Md.; Omega Group Industries Corporation, Henderson, Nev.; Odell International, LLC, Huntersville, N.C.; Partners Healthcare Group, LLC, Brentwood, Tenn.; and Martek Global Services Inc., Bethesda, Md.

The performance period for these multiple-award task order, indefinite delivery, indefinite quantity service contracts (MATOCs) will be a base period of one year and three one-year option periods, for a total of four years.

This requirement is to provide the U.S. Army Medical Department with a pool of contractors that will provide total troop-ready project support for planning, outfitting and transitioning the staff and patients associated with the FY10-15 healthcare construction projects. Services include 1) comprehensive project management for all contracted services, 2) Furniture, fixtures and equipment interior design, 3) planning, specification, procurement, tracking, shipping, warehousing, installation, inspection and associated services of medical, research, non-medical equipment and furnishings, 4) design, specification, procurement, installation, inspection and associated services of any identified information management, physical security and specialty telecom equipment, 5) transition and relocation planning and services, 6) provision of temporary and long-term warehousing, including receiving, inventorying, storing and all associated transportation as necessary for existing and new furnishings, 7) installation, assembly, technical inspection and training for equipment/systems, and 8) final turnover and close-out services and post-occupancy evaluations for identified construction projects.
