## **Small Businesses invited to discuss programs with Huntsville Center managers**

**HUNTSVILLE, Ala.** – The U.S. Army Engineering and Support Center, Huntsville, is conducting its 12th annual Small Business Forum, 9 a.m.-noon, Nov. 18, at the University of Alabama, Huntsville, University Center.

This is an opportunity for small businesses to talk with contracting professionals, program managers and subject matter experts from Huntsville Center about their programs and upcoming opportunities.

The Huntsville Center supports very specialized missions that require unique technical expertise in programs that are generally regional or global and are very broad in scope. The Center supports tasks that require a centralized management structure, integrated facilities or systems that cross geographic division boundaries; and tasks that require commonality, standardization, multiple-site adaptation or technology transfers. For more information about Huntsville Center programs visit <http://www.hnd.usace.army.mil> and review our “Fact Sheets”.

The biggest procurement opportunities for small business concerns during FY-12 will be support for the following programs:

Renewable & Alternate Energy Power Production

Architect and Engineering Services for Medical Repair & Renewal

Design/Build Services for Access Control Points and Energy Conservation Investment Program

Pre-registration for the Small Business Forum is encouraged to help ensure appropriate representation of subject matter experts. Registration is free with information available on the web at <http://www.hnd.usace.army.mil>.

If you have questions or comments, please send an e-mail to [sbo-hnc@usace.army.mil](mailto:sbo-hnc@usace.army.mil).
