## **Center awards \$585M Medical Repair and Renewal contract**

**HUNTSVILLE, Ala.** — The U.S. Army Engineering and Support Center, Huntsville awarded a shared-capacity \$585 million contract for the Medical Repair and Renewal Program July 11.

Companies awarded the contract were John J Kirlin, LLC, of Rockville, Md., Global Engineering, LLC, Kent, Wash., Inovative Technical Solutions, Inc., Walnut Creek, Calif., United Excel Corporation, Merriam, Kansas; and URS Group, Inc., Washington, D.C. The multiple award task order contract is indefinite delivery, indefinite quantity for design-build construction.

The Medical Repair and Renewal (MRR) Program at the U.S. Army Engineering and Support Center, Huntsville offers a fast-track, efficient method for design and execution of all types of medical facility repairs, renovations, conversions, alterations, additions and construction projects. MRR provides program and project management, engineering, contracting and construction support to multiple Department of Defense, Department of Veterans Affairs and non-DOD locations nationwide.
