Small Businesses invited to discuss programs with Huntsville Center managers

HUNTSVILLE, Ala. – The U.S. Army Engineering and Support Center, Huntsville, is conducting its 13th annual Small Business Forum, 9 a.m.-noon, Nov. 9, at the University of Alabama, Huntsville, University Center.

This is an opportunity for small businesses to talk with contracting professionals, program managers and subject matter experts from Huntsville Center about their programs and upcoming opportunities.

The Huntsville Center supports very specialized missions that require unique technical expertise in programs that are generally regional or global and are very broad in scope. The Center supports tasks that require a centralized management structure, integrated facilities or systems that cross geographic division boundaries; and tasks that require commonality, standardization, multiple-site adaptation or technology transfers. For more information about Huntsville Center programs visit <http://www.hnd.usace.army.mil> and review our “Fact Sheets”.

The biggest procurement opportunities for small business concerns during FY13 will be support for the following programs:

- Utility Monitoring and Control Systems
- Operations & Maintenance Engineering Enhancement Program
- Initial Outfitting and Transition Services
- Design/Build Services for Access Control Points and Energy Conservation Investment Program
- Architect and Engineering Services for Medical Repair & Renewal

Pre-registration opens Oct. 1 for the Small Business Forum and is highly encouraged to help ensure appropriate representation of subject matter experts. Registration is free with information available on the Web at <http://www.hnd.usace.army.mil>. If you have questions or comments, please send an e-mail to sbo-hnc@usace.army.mil.
